

College and Career Choices

This activity is about making choices. We need to make choices daily. Sometimes we don't like making choices or don't like the choices that we make for ourselves or that others make for us.

In this activity, you will make choices for each category. You are to make a first, second, and third choice for each category. No category should have the same choice.

Although, you may not want to pursue a specific category, this activity is about choices. Keep in mind, if you had to make a choice, what would it be? We are not saying that the choices you choose in this activity are final choices. This is to get you thinking about your future.

College and Career Choices

	1 st Choice	2 nd Choice	3 Choice
