

Exemplar Work

Exemplar Work is an assignment, project, presentation or some kind of work you did for one of your courses this year. You must choose something that you feel is your best work. The work you choose does not have to be an “A” or “B” graded work. It should be something you determine to your best.

When you have chosen a work piece, you will need to write a 2 paragraph reflection on that piece of work.

Here are some questions to help you in your reflection:

- Why you choose that work?
- Why do you feel it is exemplar work?
- How could you improve?
- What could you have done differently?
- What did you do well in this work?
- What helped you achieve in this work?

A copy of this work needs to accompany your reflection. A picture can be used for work that is not in paper form.

You will need to complete 2 exemplar work reflections for each school year.
